Plastics and Rubber Processing and Applications **11** (1989) 247–248

CONTENTS OF VOLUME 11

Number 1

The characterisation of PP for melt-spinning in terms of polymer relaxation . . 1
D. J. GROVES (UK)
Modelling of desorption of liquid from an EVA polymer device composed of a core and shell 9
H. DAVID, J. BOUZON & J. M. VERGNAUD (France)
Investigation of weld-line fracture of plastics injection mouldings 17
R. BOUKHILI & R. GAUVIN (Canada)
Influence of molecular weight on the tensile behaviour of PET films under biaxial stretching 23
JIAYU GUAN, WEI WU, XIAOLI ZHANG, ZIMIAN MA & MAO XU (People's Republic of China)
The crystallization of PEEK, a polyaryl ether ketone: molecular weight effects . 29
J. N. HAY & D. J. KEMMISH (UK)
The effect of loading rate and crack-tip blunting on crack propagation in rubber-toughened PMMA 37
J. MILIOS, G. C. PAPANICOLAOU (Greece) & R. J. YOUNG (UK)
Mechanism of smoke suppression and fire retardancy in polymers containing magnesium hydroxide filler 45
P. R. HORNSBY & C. L. WATSON (UK)
Effect of wall slippage on pressure drop in converging dies, when extruding natural rubber compounds 53
J. L. LEBLANC (Belgium), J. P. VILLEMAIRE, B. VERGNES & J. F. AGASSANT (France)
Flow visualization and residence time distribution in spiral mandrel dies . . . 59
J. PERDIKOULIAS, C. TZOGANAKIS & J. VLACHOPOULOS (Canada)
Forthcoming meetings 67

Number 2

The stress–strain behaviour of a thermoelastomer in the elastic state . . . 69
RUDOLF BÄUERLEIN (FRG)
Diethyl azodicarboxylate-modified polyisoprene: morphology and green strength properties 77
M. G. HUSON, D. A. JOOSTE & W. J. McGILL (Republic of South Africa)
Variably flexible aramid fibre composites with elastomeric matrices . . . 83
J. KREY & K. FRIEDRICH (FRG)
Blends of two solution-polymerised styrene butadiene rubbers for application in tyre treads 93
J. E. STAMHUIS, W. M. GROENEWOUD & J. RAADSEN (The Netherlands)
Bond strength in various rubber-to-rubber joints 99
ANIL K. BHOWMICK & BIDYUT CHAKRABORTY (India)
Computer simulation of the rotational moulding process for plastics . . . 107
R. J. CRAWFORD & P. NUGENT (UK)
Short Communication
The effect of PE film sample dimensions on burning properties 125
R. McILHAGGER, B. J. HILL & G. G. STEPHENS (UK)
Book Reviews 129
Forthcoming meetings 131

Plastics and Rubber Processing and Applications (**11**) (1989) © 1989 The Plastics and Rubber Institute, England.
Printed in Great Britain.

Number 3

Announcement 133

The influence of strain rate on tensile properties of polypropylene films . . . 135
RICHARD J. ROLANDO, WALTER L. KRUEGER & HERBERT W. MORRIS (USA)

Evaluation of the performance of the barrier layer of sand-filled GRP sewer linings 141
S.-W. TSUI & F. R. JONES (UK)

The performance of cobalt, nickel and copper complexes of quinoline, biquinoline and terpyridine as colorants for polystyrene 147
J. R. ALLAN, B. R. CARSON, D. L. GERRARD & S. HOEY (UK)

Theoretical approach to injection mould design using partial functions and a morphological matrix 151
IGOR CATIC & PERO RAOS (Yugoslavia)

AP-28, A polymer blend of polypropylene and polyethylene terephthalate that offends the rules 159
H. R. SPREEUWERS & G. M. W. VAN DER POL (The Netherlands)

Creep and volume dilatation in PC/PBT blends 167
H. BERTILSSON, B. FRANZÉN & J. KUBÁT (Sweden)

Fast Track Paper

A model for the viscosity of carbon black filled rubber compounds. 175
M. SINGH, J. BATCHELOR & P. K. FREAKLEY (UK)

Short Communications

Effect of vulcanization systems on the chemical characteristics and physical properties of natural rubber latex thread 179
N. R. PEETHAMBARAN & A. P. KURIAKOSE (India)

Hysteresis of thermoplastic rubber vulcanisates 185
NAMITA ROY CHOUDHURY & ANIL K. BHOWMICK (India)

Forthcoming meetings 189

Number 4

Processing factors affecting the quality of resin transfer moulded composites . . 191
J. S. HAYWARD & B. HARRIS (UK)

Conductive carbon black filled ethylene propylene rubber–chlorosulphonated polyethylene rubber blends: bonded to strippable type semiconductive shield . . 199
S. BHAUMIK & N. K. DATTA (India)

Mixing in a self-wiping co-rotating twin-screw extruder, an experimental study . 207
Y. LI, A. SENOUCI, R. A. LAI-FOOK & A. C. SMITH (UK)

Use of wood fiber as a filler in polyethylene: studies on mechanical properties . 215
R. G. RAJ, B. V. KOKTA, G. GROLEAU & C. DANEAULT (Canada)

Preparation, structural characterisation and electrical properties of transition metal acrylate: styrene copolymers 223
J. R. ALLAN, J. G. BONNER, K. TURVEY, D. L. GERRARD & S. HOEY (UK)

The production and properties of die-drawn polyethylene pipe 229
A. SELWOOD, B. PARSONS, I. M. WARD & A. GRAY (UK)

Effect of plasticizer concentration on the dynamic mechanical properties of bromobutyl rubber vulcanizates. Part I—effect of temperature and frequency at low strain amplitude 235
NABA K. DUTTA, D. KHASTGIR & D. K. TRIPATHY (India)

Fast Track Paper

A model for the stress relaxation of carbon black filled rubber compounds . . 241
M. SINGH, J. BATCHELOR & P. K. FREAKLEY (UK)

Forthcoming meetings 245
